

# Titan

## Two-column lift VL50F400

5000kg 400V

- 5000kg Capacity
- Very large range
- Fully automatic
- Triple adjustable arms
- Adjustable pads with double spindle

Quality hydraulic pump

Double spindle

Height adaptor

The thoughtful design of Falco bridges saves you time and effort. The focus is on ease of use and an efficient work flow. The different models are developed for various applications. The "Titan XXL" fully automatic model has a long reach, is a very complete and reliable model, making the lift suitable for large vehicles in particular

### Technical specifications

capacity	5000 kg
voltage	400 V 3-fase
engine power	2,2 kw
min. take-up height	105mm
max. lifting height	1900mm
reach short lift arms	800 - 1500mm
reach long lifting arms	1000 - 1950mm
distance between columns	3342mm
height of the columns	2880mm
total width	4136mm
weight	1000kg
oil capacity	15L CH32 / CH46 (Not included)

All Falco truck bridges comply with the NEN-EN1493 safety standard and come with a Dutch manual including maintenance protocol and CE certificate 2006/42/EC.

### Features

- Large triple telescopic adjustable support arms
- Steel cable equalisation control (synchronisation)
- Quality hydraulic pump incl. cooling fins
- 24V control box
- Transparent oil reservoir incl. oil level
- Foot protection incl. acoustic safety signal
- Height-adjustable support pads with double spindles
- Automatic support arm lock
- Fully automatic electric locking
- Inner column cover
- Robust columns made of rolled steel
- Protection rubber door stop
- Hydraulic cylinder on both sides
- Deadman's handle for raising and lowering
- Automatic overload protection
- Height limit switch
- Mounting kit floor mounting
- Set of 70 mm height adapters (4 pieces)
